Journal of Mental Deficiency Research, 1987, **31**, 415–416

Subject Index to Volume 31

American mental retardation service system 337
Annotation 213
Atherosclerosis, neurogenic 235
Aspberger's syndrome, implications for diagnosis by computer-assisted linguistic analysis 279

Biochemical approach to mental handicap: 30 years of achievements and disappointments 357
Book reviews 115, 227, 311
Breathing, nocturnal periodic in adults with Down's syndrome 31

Cerebrospinal fluid monoamines in Down's syndrome adults at different ages 259
Clinical study, the elderly mentally handicapped in hospital 131
Coffin-Lowry syndrome and schizophrenia: a family report 199
Cognitive psychology and mental handicap 329
Comparison
of the daily lives of four young mentally retarded adults 303
12 years of changes in life expectancy in Canadian institutions 41
Contents of Volume 1, Part 1, 1957 313
Current Topic 229
Cystathioninuria in a profoundly mentally retarded woman with spastic tetraplegia, deafness and abnormal liver function tests 299
Cytogenetic survey of a school-age population with special reference to fragile sites 61

De Lange syndrome, Psychosocial assessment of 36 patients 251
Delusions, erotomanic: two case reports 87
Dementia: development, disintegration and 349
Dermatoglyphics, digital, of Turner's syndrome 181
Development, disintegration and dementia 349
Diet, restricted protein in the treatment of behaviour disorder in an adult female phenylketonuric 209
Down's syndrome
cerebrospinal fluid monoamines 259
intellectual and behavioural functioning during adulthood 241
nocturnal periodic breathing in adults 31
stereotype: effect of direct experience of the condition 271

Editorials 121, 315
Enuresis, secondary diurnal, evaluation of cueing and reinforcement interventions with a sensory-impaired youth 287
Epidemiological issues in mental retardation 365
Epileptics with folate metabolism and problem behaviour 163
Erotomania in mentally handicapped patients: two case reports 87

Fragile-X syndrome
and Klinefelter syndrome 73
cytogenetic survey of a mentally retarded school-age population 61
in twin sisters 81
From the Centres 385

Genetic implications in the causation of microcephaly: Current topic 229

Intellectual and behavioural functioning in Down's syndrome in adulthood 241

Klinefelter's syndrome and associated Fragile-X 73

Letters to the Editor 215
Life expectancy, changes in: a 12-year comparison of mentally retarded persons in Canadian institutions 41
Linguistic analysis, computer-assisted of an autistic adolescent's language: implications for the diagnosis of Aspberger's syndrome and atypical psychoses 279

Metabolism, folate and problem behaviour in mentally handicapped epileptics 163
Microcephaly, a review of genetic implications in its causation 229

Obituary 119
Obstruction, intestinal, as a cause of death in the mentally handicapped 193

Pharmacotherapy overview: current status and future directions: Guest Editorial 121
Phenylketonuria: use of protein restricted diet in treatment of behaviour disorder in a severely mentally retarded adult female 209
Prescribing in a hospital for the mentally retarded 17
Processing, hemispheric and selective attention: the effect of negative ions in the mentally retarded 169
Psychology: cognitive, and mental handicap 329
Psychosis, atypical: the implications for diagnosis by computer-assisted linguistic analysis 279
Psychosocial assessment of 36 de Lange patients 251

Reflux, oesophageal: surgical management in severely mentally retarded children 1
Research on mental handicap, 1957–1987, a selective review 317
Rett syndrome workshop, Glasgow, Scotland 24–25 May 1986: a report 93

Schizophrenia and Coffin-Lowry syndrome: a family report 199
Self-injurious behaviour in mental handicap: a total population study 147
Stereotype, Down's syndrome: effect of direct experience of the condition 271
Syndromes
  Aspberger 279
  Coffin-Lowry 199
  de lange 251
  Down's 31, 241, 259, 271
  Fragile-X 73, 81
  Klinefelter 73
  Rett 93
  Turner 181
  West 9
Trisomy 2p. partial 293
Turner syndrome: digital dermatoglyphics 181

West syndrome, mental outcome: prognostic value of some clinical factors 9
